

HOUSE IN WOODS - CHIGASAKI, JAPAN

ARCHITECT: KIYAMU OGATA

FIRM: KONARA HOUSE

This wooden house in the woods depends heavily on the siding and fenestration to achieve its design concept. The exterior wooden siding will turn a silver gray color as it ages, and the white wood windows and trim from Marvin® create contrast

within this simple but elegant living space. The windows on the south and east sides of the home bring in plenty of sunlight as well as the spectacular view of the woods.
